DETAILED ACTION

Applicants' response filed 2/28/2007 has been entered. All pending claims have been carefully reconsidered in view of the response.

Response to Amendment

The affidavit filed on 2/28/2007 under 37 CFR 1.131 is sufficient to overcome the Chiu et al (US 6,796,715) reference.

Allowable Subject Matter

Claims 11-12, 15-18, 35-43 are allowed.

The following is an examiner's statement of reasons for allowance:

Pluggable optical modules are well known in the optoelectronic device art. Prior art of record in the present application disclose pluggable modules having handles or attachments for initiating insertion or withdrawal of pluggable modules.

However, none of the prior art fairly teaches or suggests such pluggable module having a handle with a cam portion in a shape of a bend, such that rotary movement of the handle corresponds with a linear motion of an ejector button to engage AND disengage the module from the module cage as claimed in the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
